

## SUMMER READING

Dear Children,

Summer reading is of vital importance! Research shows that children who read more than four books during summer holidays are better prepared for the following academic year and don't go down the "summer slide"-the loss of reading and learning skills during the summer break. Reading books during the summer months has a great influence on children's learning. The more students read, the more proficient they become (at reading and writing) day by day. Summer is a great time to read books for pleasure and to nurture love for reading.

All English language teachers of our school have a great desire to generate enthusiasm in you by helping you acquire better reading and writing skills. The process of reading will definitely help you to formulate, evaluate, analyze and synthesize your thoughts and ideas. It will also help you to expand and enlarge your view of the world. Remember, reading is mind travelling, destination unknown. Make this statement your reading motto and step into reading process expecting to surprise yourself with the discoveries you make.

**Enjoy your summer and "a world of reading" !**

**"Books Make Great**

**Gifts...**

**They Have Whole World**

**Inside Of Them."**

## List of recommended literature
